

# GENERAL NOTE

In case that our company HOTHES s.r.o. not providing the wrapping, its important that the person responsible for wrapping checks the data if they are able to wrap it. They must check the overlaps of the design and the real dimensions of the car vs blueprint. In the case of a full printed design, we strongly recommend printing a color sample and agreeing it with the client. We are not responsible for any deviations. We are fully at your disposal to solve any problem with the data. So dont hesitate to contact us
